2 November 2026

Dear Parents and Carers

I am writing to inform you of a slight change we are making to our spelling schemes at Windsor Park.

Moving forward, all students will receive a list of 20 age-appropriate spellings each half term, carefully selected to reflect their year group's spelling expectations and support their developing literacy skills. Students will be tested on these words at the end of each half term.

Students will have the entire half term to practise and learn their spellings at home. In school, we will also regularly revisit and use these words within our English lessons to help students develop their spelling accuracy and confidence in applying these words in their independent writing.

We encourage you to support your child by practising the words little and often at home throughout the half term.

Thank you for your continued support.

Yours sincerely

The English Department
