Introduction to the Guidance

The school is aware and acknowledges that increasing numbers of adults and children are using social networking sites.

The widespread availability and use of social networking application bring opportunities to understand, engage and communicate with audiences in new ways. It is important that we are able to use these technologies and services effectively and flexibly. However, it is also important to ensure that we balance this with our reputation.

This guidance and associated guidance is to protect staff and advise school leadership on how to deal with potential inappropriate use of social networking sites.

For example, our use of social networking applications has implications for our duty to safeguard children, young people and vulnerable adults.

The guidance requirements in this document aim to provide this balance to support innovation whilst providing a framework of good practice.

Purpose

The purpose of this guidance is to ensure:

- That the school is not exposed to legal risks
- That the reputation of the school is not adversely affected
- That our users are able to clearly distinguish where information provided via social networking applications is legitimately representative of the school.

For the purpose of this document, Social Media is defined as internet based sites and applications which allow users to share content or to communicate either publically or privately with other users. This includes, but not exclusively, Facebook, WhatsApp, Twitter, Snapchat, Instagram, Tik Tok, Roblox and online gaming systems.

Facebook is targeted at older teenagers and adults. They have a no under-13 registration guidance and recommend parental guidance for 13 to 16 year olds.

The following are extracts from Facebook privacy guidance:

“If you are under age 13, please do not attempt to register for Facebook or provide any personal information about yourself to us. If we learn that we have collected personal information from a child under age 13, we will delete that information as quickly as possible. If you believe that we might have any information from a child under age 13, please contact us”

“We strongly recommend that minors 13 years of age or older ask their parents for permission before sending any information about themselves to anyone over the Internet and we encourage parents to teach their children about safe internet use practices.

Materials to help parents talk to their children about safe internet use can be found on this help page”

WhatsApp require people using the service to be 16 years of age or older.

Twitter, Snapchat, Instagram and Tik Tok require people using the service to be 13 years of age or older.

Roblox has no age limit, though parents are encouraged to utilise the provided parental controls.

This guidance covers the use of social networking applications by all school stakeholders, including, employees, Governors and pupils. These groups are referred to collectively as 'school representatives' for brevity.

The requirements of this guidance apply to all uses of social networking applications which are used for any school related purpose and regardless of whether the School representatives are contributing in an official capacity to social networking applications provided by external organisations.

Social networking applications include, but are not limited to:

- Blogs, for example Blogger
- Online discussion forums, such as netmums.com
- Collaborative spaces, such as Facebook
- Media sharing services, for example YouTube
- 'Micro-blogging' applications, for example Twitter

All school representatives should bear in mind that information they share through social networking applications, even if they are on private spaces, are still subject to copyright, data protection and Freedom of Information legislation, the Safeguarding Vulnerable Groups Act 2006 and other legislation. They must also operate in line with the School's Equality and Diversity Guidance.

Use of Social Networking Sites in Work Time

Use of social networking applications in work time for personal use only is not permitted, unless permission has been given by the Head teacher.

Social Networking as Part of School Service

All proposals for using social networking applications as part of a school service (whether they are hosted by the school or by a third party) must be approved by the Head teacher first.

Use of social networking applications which are not related to any school services (for example, contributing to a wiki provided by a professional association) does not need to be approved by the Head teacher. However, school representatives must still operate in line with the requirements set out within the guidance.

School representatives must adhere to the following Terms of Use. The Terms of Use below apply to all uses of social networking applications by all school representatives. This includes, but is not limited to, public facing applications such as open discussion forums and internally-facing uses such as project blogs regardless of whether they are hosted on school network or not.

Where applications allow the posting of messages online, users must be mindful that the right to freedom of expression attaches only to lawful conduct. Windsor Park Middle School expects that

users of social networking applications will always exercise the right of freedom of expression with due consideration for the rights of others and strictly in accordance with these Terms of Use.

- This means that no member of the school staff should request access to a pupil's area on the social networking site. Neither should they permit the pupil access to the staff members' area e.g. by accepting them as a friend.

Guidance/Protection for Pupils on Using Social Networking

guidance the direct link for this is:

http://www.facebook.com/help/contact.php?show_form=underage

- No pupil may access social networking sites during the school working day
- No pupil should attempt to join a staff member's areas on networking sites. If pupils attempt to do this, the member of staff is to inform the Head teacher. Parents will be informed if this happens

- Any attempts to breach firewalls will result in a ban from using school ICT equipment other than with close supervision
- Please report any improper contact or cyber bullying to you tutor / class teacher as soon as it happens.
- We have a zero tolerance to cyber bullying

Child Protection Guidance

If the head teacher receives a disclosure that an adult is using a social networking site in an inappropriate manner as detailed above, they should:

- Follow the child protection guidelines.
- Schools must refer the matter to the LADO or appropriate authority.
- The LADO will advise whether the member of staff should be suspended pending investigation after contact with the police. It is not recommended that action is taken until advice has been given.
- If disclosure is from a child, follow normal process as set out by the child protection guidance until the investigation has been carried out.

Cyber Bullying

By adopting the recommended no use of social networking sites on school premises, Windsor Park CE Middle School protects itself from accusations of complicity in any cyber bullying through the provision of access.

Parents should be clearly aware of the school's guidance of access to social networking sites.
